Rest assured that you are in the right place, and it is an opportune time for you to receive God's healing power.

GOD

As Your Doctor

WHEN AN ISRAELITE TODAY IS GOING TO A DOCTOR HE SAYS I AM GOING TO THE 'RO-FEH' WHICH IS EXACTLY 'RAPHA', THE NAME GOD CALLS HIMSELF BY.

Proverbs 4;20-22 says:
"My son, attend to my words; incline thine ear unto my sayings. Let them not depart from thine eyes; keep them in the midst of thine heart. For they are life to those that find them, and HEALTH to all their flesh." (KJV)

The Hebrew word for "health" in verse 22 is 'Marpe' which means literally 'a medicine' or a 'cure.' God's word is actually a medicinal agent to ALL your flesh. It is the best medicine for you. It will cure any disease. It will heal you!

In fact the Lord adds to it by saying something very exciting, in the original Hebrew rendering of the Bible, that He is a Medical Doctor. He says He is a Medical Practitioner.

This is proven in Exodus 15;26 when God says:
"...I am the Lord that HEALETH THEE..."

Isaac Leeser's translation of the same scripture, Exodus 15:26, reads:

"...I the Lord am thy PHYSICIAN..."

Did you see that? The word 'healeth' in Exodus 15:26 there is 'Rapha' which means 'medical doctor' or 'medical practitioner'. That scripture is calling God a Medical Doctor. It is taking God as your Medical Practitioner. It is not saying He will heal you only. It is claiming God is your GP.

The Lord says here, He is a Doctor and the medicine He prescribes is His Word. This Doctor who created you and the whole universe including all that is in it is saying He has His word as His medicine to cure and heal all your diseases.

When an Israelite today is going to a Doctor he says I am going to the 'ro-FEH' which is exactly 'Rapha', the name God calls Himself by.

You see that God is not saying He is the Lord that 'healeth thee'. No not at all. He is making a bold statement that He is the Lord your GP. He is claiming to be your Doctor and nothing less. This is what they call the Doctor in Israel. God was using their day to day language and the translators of the Bible went off the rails by that claim. To them it was too practical so they just translated it thus:

"I am the Lord that HEALETH THEE..."

Instead of saying it like God said it:

"I am the Lord your MEDICAL DOCTOR..."

Do you see that? Now you see that God is your GP. He is your Medical Practitioner. He is your Doctor. He can heal you if you take and follow his prescription!

“I AM THE LORD, YOUR MEDICAL DOCTOR!”

DIAGNOSED WITH **BULBAR PALSY**

But she held on to the encounter with Prophet Uebert Angel that had taken place a few months prior in the month April, as the doctors would attempt to wake her son up the next day.

August, late in the summer of his nineteenth year, Nzama Mdluli, full of elation and contentment from being on his summer break, was on his way to his accommodation after completing a shift at his on-campus job. As he returned back to his room, he decided to have a quick shower, before a friend he was expecting was to arrive later that evening. Whilst drying himself, in that very moment, the force of gravity holding his life together completely lost its influence, as he began to suddenly have repeated seizures.

Forty-five minutes, to some it's the first half of a football match, but to Nzama, it is the length of time he was left undiscovered in his bathroom. When his roommate and friend finally found him, they tried and tried to open his door but unfortunately to no avail. They immediately called the ambulance but unbeknown to them, those crucial forty-five minutes had left Nzama in a precarious state, stuck in limbo, bordering between the lines of life and death. He was taken straight to Northern General Hospital in the United Kingdom, where he was then sedated and intubated.

“His mother had been presented with the doctor’s report but she refused it, choosing to believe in God’s report!”

Epilepsy is not something that decided to just intrude and cause turmoil to his life that day. He had been diagnosed with this condition from a very young age. Being that he joined Spirit Embassy at the beginning of 2022, his mother, acting on hope and faith, had brought him to the Healing Institute session in April 2022. He was prayed for by the Prophet during both the Healing Institute session and the Easter Conference, which took place conjunctively.

For his mother, her state of mind, her whole being, was at the mercy of just one phone call. As she picks up, she hears the shattering news that her son had multiple seizures, and was found unresponsive on his bathroom floor.

But she held on to the encounter with Prophet Uebert Angel that had taken place a few months prior in the month April, as the doctors would attempt to wake her son up the next day. As quickly as it came, is as quickly as it left, as that optimism was seized from her the moment she found out the doctors attempt at waking up her son was to no success.

For a week, he laid there in a coma, still unresponsive and thus was subsequently transferred to Hallam Royal hospital. That same faith and hope she used to bring her son to the Healing Institute sessions, started to stir up in her spirit. Fuelled with expectation, she made the transformative decision to put the emblem that the Prophet personally pinned on her during a big church day service onto her son’s hospital gown and played both the Prophet’s ‘Song for Protection’ and ‘Prayer Chants for War’, during the full duration of his time in the Intensive Care Unit (ICU). Knowing and believing in the miraculous healing power that is at work through Prophet Uebert Angel and the encounter her son had experienced, she would constantly remind herself of it and stir up her faith for her son. That optimism which was once stolen, began to be returned back to her in ten folds as just after one week,

after seven days of determination, he came out of the coma and was finally awake. Nzama's condition was getting better, but slowly, and at this point his doctors wanted to do a tracheostomy, since he was unable to swallow, cough, or control his secretions. The doctors felt like they had a diagnosis and told his mother of their suspicions as this could be the only explanation for this severe case, that he may have a degenerative disease called 'Bulbar Palsy and Autoimmune Encephalitis'. If they were able to confirm this, it would mean he would only have six months to three years to live, according to the doctors.

His mother had been presented with the doctor's report but she refused it, choosing to believe in God's report, knowing that the Spirit Embassy emblem was not just an emblem but a conduit of the anointing of the Prophet. They took samples from him to take to Oxford for further testing, and during this time his mother asked for them to be transferred to Leicester Royal Infirmary Hospital, so that he could be closer to both his home and church. She never wavered knowing the Prophet had declared a word over the life of her son Nzama and had the conduits of the anointing with her.

The doctors did go ahead and perform the tracheostomy, but then, within a matter of two weeks, Nzama started getting much better. The results came back, and to the sheer relief of everyone, they were negative and no diagnosis was given to explain what could have been the cause. But we know Doctor Jesus was at work in Nzama's life from the very moment he encountered Prophet Uebert Angel. He was discharged from the ICU after six weeks and placed in another ward where he spent less than two weeks. Nzama was then completely discharged from the hospital and sent home. Since that time, he has not had any seizures or any problems arising from epilepsy under the grace of Prophet Uebert Angel. Hallelujah!

Since that time, he has not had any seizures or any problems arising from epilepsy under the grace of Prophet Uebert Angel

Raised from the Dead

Do you believe in the resurrection of the dead? Have you ever allowed your mind to wonder and entertain the idea that it is truly possible for one to die and come back? And no, I am not referring to one having a near death experience; I mean medical doctors standing over someone's body, declaring their time of death one minute, and the next, that individual is alive, heart beating, blood circulating. If not, let this account feed your imagination and push the boundaries your mind has established.

2.1%, this is the prevalence rate of diabetes within Zimbabwean nationals, and Carlton Mudiwiwa, a modern-day Lazarus so to speak, had become a part of this statistic. Towards the end of 2020, he woke up on what appeared to be just another mundane day, he got dressed, and made his way down to the clinic, to have his blood sugar levels checked.

It was there he found out just how critical his condition was, as he was informed that due to his sugar levels being too high, the tests they ran would come back as error. Carlton needed to be admitted to begin receiving immediate treatment. However, because this occurred at the height of the COVID-19 pandemic, the clinic was unable to admit Carlton unless he could show a negative COVID test result.

He did the COVID test, but at that time it would take 48 hours for the results to be returned. During this 48-hour waiting period, his condition began to rapidly deteriorate.

His only hope now was God, so he would be constantly turning to Him in prayer, pleading for help.

Unconsciousness, a precarious state between life and death. In the case of Carlton, he had become a victim of this fate and fell unconscious. Confusion saturated the environment as no one could explain what was happening to him. Shortly after, his results finally came back as negative, so his wife Gailey instantly rushed him to the hospital. When they arrived, he was taken straight to the intensive care unit and the doctors made all attempts to try and resuscitate him, but to no avail.

“Carlton is gone.”

As these words departed the lips of the doctor, all of a sudden, the walls of the hospital were too white, the fluorescent lights on the ceilings were too bright, the beeping of the machines were too loud and the smell, too sanitised. Everything became too much for Gailey.

Gailey and her family were all in shock and disbelief. Carlton was just okay and now, dead. When she took him to the hospital, she came with the impression and belief that the doctors would treat him, and she would be going back home with her husband. To add to an already traumatising and stressful situation, Gailey was 9-months pregnant, they had been expecting a child. She was now being crippled by worries on how she would be able to cope and manage as a new single mother.

She did not want to be a widow, she did not want to believe Carlton was dead, she refused to believe it and as they were planning to take his body to the mortuary, she decided to call Pastor Felix.

See Carlton and Gailey had been members of Spirit Embassy since 2011, and they had been witnesses to the great miracles, signs and wonders that the Lord Jesus had done through Prophet Uebert Angel.

It was late at night when she called Pastor Felix, and to her great relief, he answered and after she explained the situation to him, he called the Prophet. Prophet requested for a picture of Carlton to be sent to him, so Pastor Felix forwarded a photo of Carlton that he had received from Gailey.

Serenity began to flow through her body as Pastor Felix informed Gailey that the Prophet was praying for her husband. In that moment, she knew with all certainty and confidence, that because the Prophet had seen the photo, for this reason alone, something was going to happen. And just like that, the doctors called Gailey and told her that Carlton was back. Carlton was alive. The breath of life had returned back to his body.

During this time, the only thing Carlton remembered was finding himself in a valley. When he awoke, he was surprised to find himself in the hospital, with his family around him and nurses exclaiming that he's back to life. The Lord Jesus is a God who wants complete and total healing for all of His children. So on top of being raised from the dead, Carlton had also been healed of diabetes and has not taken any medication since, to the Glory of the Lord Jesus.

Baby Immanuel Healed From Talipes (Clubfoot)

Just one word out of a doctor's mouth that would lead the sentence responsible for drastically changing the course of Asistant Pastor Charlie and sister Marylyne's life.

What was assumed to be a routine check-up appointment, turned out to be that which could only be described as one of the worst days for a young, excited couple, who were eagerly anticipating the birth of their first child.

For 20 weeks, at every check-up, they had not been given a single reason to be concerned with the pregnancy. The bubble of bliss they were so tightly wrapped in quickly began to lose its hold on them, as they were given heart-aching news by their doctors. They were told that their son would be born with clubfoot in both legs. Just when they thought they had heard it all, the doctors proceeded to inform them that their child's case was so severe, that it rated at the very top end of the scale.

An atmosphere which was supposed to be saturated with joy, passion and love was plagued with fear, desperation and anxiety. As parents, the idea of seeing your child, seeing an extension of your very self, experience immense discomfort caused so much pain to them. Thoughts about how they were going to cope with the demands that this condition would place upon them, would constantly be at the forefront of their minds.

Their beautiful baby boy was finally born, but the reality of the severity of this condition swiftly swept in. For the first three months, he had casts on both his legs, every day, to aid in the straightening process and, he could only be bathed once they removed the cast pending its replacement.

“
Because of
the Word
released by
the Prophet,
their minds
were
impenetrable
to the
crippling
feelings of
fear.
”

At first, doctors assured them that they would only need to have their son's legs cast six to eight times. But since the condition was so severe, baby Immanuel had his legs cast twenty-four times.

Everyday tasks such as changing his nappy or bathing him began to be a source of struggle for his mother. She would have to tediously wrap the casts in cling film to protect them from getting wet. If water or anything did in fact manage to get inside, they would have to take him straight to the hospital to get him re-casted. Fear began to creep in, and his mother wondered how she would continue to care for him with this condition. At night, it would be no different, she would always sleep with him on her chest,

which would give room for fatigue, anxiety and confusion to dictate her life. The future and how he wouldn't be able to participate in some activities, like playing football, would also cross his father's mind. The simple pleasures of life began to seem like a luxury that his father was deeply yearning for.

But then, hope. A feeling of expectation and desire soaked in optimism. This feeling which was once quenched, like an eternal flame it had been reignited, as the couple made the life changing decision to attend Spirit Embassy London. They had been watching the Man of God, Prophet Uebert Angel on YouTube a year prior, since the Lockdown in 2020, but this would be their first time to see him in person.

As they sat in the congregation, with expectation seeping through their pores, the Man of God looked up at them as he was passing by. In that very instant, their hopefulness was solidified into a tangible form, they knew that the Prophet had known their situation. Expectation overcame them and was their driving force to do everything they could to get the attention of the Prophet. Whilst the mother held baby Immanuel, the father would also be holding a picture of their child on his phone, chasing after the Prophet to capture his attention.

Pure relief descended upon them as the Prophet had finally located them and touched the photo of baby Immanuel's legs. He then called for the mother to bring the child and also touched his legs and gave them a mantle, leaving them with an instruction to place it on baby Immanuel's legs for seven days. It had now been two days since their encounter with the Man of God. A previous issue of the casts slipping off, returned and once again it fell off. Because of the Word released by the Prophet, their minds were impenetrable to the crippling feelings of fear. It had now been five days of the casts being off and they had made it a mandate to continue following the instructions of the Prophet. Usually when the casts slip off, Immanuel's legs would turn inwards again and stiffen. But there was a clear, evident distinction this time. Immanuel's legs did not respond in the way they used to before the encounter with the Prophet. This time, his legs would remain straight and flexible.

From the moment they had an encounter with Prophet Angel, Immanuel was set free from the shackles of club feet and it instantly became a thing of the past. Now he is able to stand on his own two feet, he can put weight on them and can even bounce on them.

They are straight and perfect as God intended. Words would fail to adequately describe the feelings of pure happiness and joyfulness their parents experienced. As they rejoiced they would immediately go on to thank the Prophet, and give all the praise and glory to the Lord God!

to make Jesus Christ the Lord of your life by praying this prayer.

"O Lord God, I come to You in the name of Jesus Christ. I believe with all my heart in Jesus Christ, the Son of the living God. I believe He died for me and that You raised Him from the dead. I believe He is alive today. I confess with my mouth that Jesus Christ is the Lord of my life from this day. Through Him, and in His name, I have eternal life. I am born again! Thank You, Lord, for saving my soul! I am now a child of God. Hallelujah!"
